 (865) 973-3025 |  Knoxville, Tennessee

EDUCATION

University of Tennessee – Tickle College of Engineering

Knoxville, TN

5-Year BS/MS in Computer Science – Double Minors in Cybersecurity and Machine Learning

May 2026

GPA: 3.92 – Summa Cum Laude – 8 semesters of Dean's List

PROFESSIONAL EXPERIENCE

University of Tennessee – MOA Cybersecurity Research Lab

Knoxville, TN

Graduate Research Assistant

Aug 2025 – Present

- Designed a quantitative methodology to evaluate the Microsoft SBOM's accuracy and robustness in supply-chain defense.
- Established multi-package repositories to manually measure and track dependencies as the verified ground truth.
- Simulated 3 evasion vectors (parser confusion, typo-squatting, dependency confusion) to test the scanner's vulnerability.

RELEVANT PROJECTS

ZestyCoach – Smart Health Mobile App

Knoxville, TN

Back-end Developer

Jan 2026 – May 2026

- Co-architected a robust Supabase database schema to efficiently query time-series data, reducing query latency by 40%.
- Built a secure backend pipeline to synchronize 10+ daily biometric metrics from Apple HealthKit into Supabase.
- Automated cryptographic hashing for 100% of PII, ensuring zero-knowledge storage and strict HIPAA compliance.

Redirection Guard – Smart Phishing Detector

Knoxville, TN

Machine Learning & Cybersecurity Developer

Sep 2025 – Dec 2025

- Developed a Chrome extension in TypeScript to intercept hidden and unauthorized redirections with 100ms latency.
- Prepared a realistic phishing dataset of 15,666 URLs to fine-tune a Gemini model, achieving 90% accuracy.
- Integrated the model to create a two-tiered detection system: querying black list before activating a model for classification.

lou-lab.com – Academic Lab Website

Remote

Full-stack Web Developer – Self Employment

Jun 2025 – Aug 2025

- Delivered a public website and an administrative studio using Next.js to streamline lab information and 50+ publications.
- Deployed the site on Vercel with a professional domain, achieving 99.9% uptime with secure access for 200+ visitors monthly.
- Applied Sanity CMS for role access of 20 users to update content independently, reducing management time by 80%.

LEADERSHIP & ACTIVITIES

Arts & Sciences Undergraduate Research Symposium – (ASURoS)

Knoxville, TN

Presenter

Mar 2026

- Presented original research on the practical efficiency and robustness of Microsoft SBOM tools in supply-chain defense.
- Showcased findings on SBOM robustness and collaborating with fellow researchers and faculty.

Hack4Impact – Nonprofit Organization

Knoxville, TN

Front-end Web Developer – Member

Aug 2024 – Dec 2024

- Collaborated with designers to build a nonprofit donation platform for *Mission of Hope*, supporting 500+ active users.
- Implemented responsive UI elements with Next.js, ensuring 100% compatibility across multiple devices.

SKILLS & CERTIFICATIONS

Programming: C, C++, Python, JavaScript, TypeScript

Tools & Services: React, React Native, Node.js, MongoDB, Supabase, Google Cloud Service, Docker, DevContainers

Machine Learning: NumPy, Pandas, Scikit-Learn, NLP, LLM, Automatic Agents

Cybersecurity: Encryption, PKI, Certificate Management, WebAuth, Software Security, SBOM

HONORS & AWARDS

AURA Award: Selected for a competitive grant for research at EURECA Summer 2026

Fred M. Roddy Scholarship: Awarded to the top 4 students with academic merit by the UT General Scholarship Committee
